

COVID-19 support (Vietnam)

Since the spread of COVID-19 in various countries in 2020, Vietnam immediately implemented strict border controls to prevent the virus from spreading in the country. However, since 27 April 2021, the epidemic situation in Vietnam has intensified, and stricter epidemic preventive measures have been implemented. Under the lockdown order, economic activities have dropped sharply, and many people have lost their jobs and incomes, making life difficult.

In churches in Vietnam, servers generally have no income, and their wives go out to work to earn money. However, many companies closed down due to the intensification of the epidemic, and the wives also lost their job.

If you are willing to provide financial support for the servers' family, you may donate to "**His Field emergency aid project**", and let us convey your wishes to Vietnam. 🍊🍊🍊

His Field Foundation - support the underprivileged in Southeast Asia

Donation by bank transfer or check, please refer to www.hisfield.org
(email: info@hisfield.org)

After donating, please fill in the online form for receipt.
